Dear .Judge .Wexler

Mr. Wexler consel responded to the letter and said that they don't think that the case should be reopen with out new finding. Well counsel is wrong about this one. Your there was no reports from the detective on doing any founding of me even doing this crime. Please sir I am asking u for help because I don't see a person doing time for nothing. So I need u to make this call because its just not right .My case number is ~~07-1866~~ 07-1866 all of my witness is ready to go . I still want to do this myself. Ive spoken to a lawyer and he said that consel should have sent me something to say that the case is close.SO with that in mind its not untimely if I did not no anything like this was going to happen.. I thank that I earn at least for a juror to hear my side since nobody else would

Thank You
Martin Harris
